Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Tuesday 18 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Largely dry and clear with the odd shower, possibly heavy.

This Evening and Tonight:
Scattered showers through the early evening. They will quickly ease, leaving largely clear skies overnight. Isolated fog patches may develop in prone areas. Feeling chilly. Minimum temperature 2 deg C (36 deg F).

Wednesday:
Through the morning, showers develop quickly across the region, less frequent than recently, but still possibly heavy and thundery. Turning largely dry later, and remaining so overnight. Maximum temperature 15 deg C (59 deg F).

Outlook for Thursday to Saturday:
Persistent rain on Thursday arriving from the west, with strong winds. Staying wet on Friday, with a risk of thunder. Further scattered showers and sunny spells on Saturday.
